GASOLINE FINDER

Paste to provide clear indication of the gasoline level in tanks

- Quick and simple detection of levels in gasolinetanks
- Directly visible through clear alteration in colour
- Very economic in use
- Sticks well to the gauging rod

APPLICATION

GASOLINE FINDER to detect the level in tanks with gasoline and other light mineral oils, that are otherwise difficult to determine as they evaporate quickly.

DIRECTIONS FOR USE

A small amount of *GASOLINE FINDER* is to be spread on the gauging rod, dip-stick or measuring tape. On places where the paste has been in contact with gasoline etc., the paste will be coloured red. This makes it easy to determine the level exactly.
