DESCRIPTION

URICLEAN CONCENTRATE is a blend of concentrated biodegradable cleaners for effective removal of uric acid deposits. The product is formulated especially for vacuum type sanitation system, where uric acid deposits persist and ultimately cause internal blockages. It has the proven ability to reduce and in many cases eliminate this problem within the vessel's sanitation piping system.

APPLICATIONS

URICLEAN CONCENTRATE is designed to be the first phase treatment before implementing an effective bacteria type treatment such as *MICROZYME LIQUID*. It is suitable for use in all types of marine sanitation systems.

DIRECTIONS FOR USE

50 ml of *URICLEAN CONCENTRATE* should be added to each toilet daily. It can also be used at the same rate in sinks and shower drains.
